Frequencies for Your Life

¹ "Individualized Microcurrent Frequencies" ("IMF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user. The programs for Individualized Microcurrent Frequency (IMF) are structured in terms of duration, frequencies, intensity, naming, and descriptions, drawing upon the practical expertise of specialists and our understanding of how frequency-modulated microcurrent interacts with the Bioenergetic Field. They have not been confirmed by independent studies. The Healy Individualized Microcurrent Frequency (IMF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.
